even in hot summer temperatures. Revive's scientifically superior product is composed of organic-based materials wetting agents, surfactants and other ingredients. No raking involved, just spray, soak and walk away until

Directions For Use

the lawn is drv.

How Revive

Shake the container lightly before using. Attach ready spray nozzle to water hose. Turn water on, open valve and hold nozzle approximately 4" above each burn area and spray each spot for 10-20 seconds depending upon the size. After soaking each spot flush the treated area with water for another 10-20 seconds. Most areas show recovery in 14 days. If you don't see visible improvements in 14 days, treat the area again.
